

TOWNHALL

TOWNHALL MEETINGS ON HIGH PERFORMANCE COMPUTING (HPC) IN CANADA

Compute Canada will be hosting a series of Town Hall meetings in Atlantic Canada during the week of January 13, 2014.

All faculty, students and other researchers currently or potentially doing computational research are strongly encouraged to participate in the meeting closest to them.

The input received during these sessions will help shape the plan for the advancement of High Performance Computing (HPC) in Canada, as well as define the roles and responsibilities of Compute Canada nationally and the regional consortia such as ACEnet.

To ensure that the interests of Atlantic Canadian researchers continue to be well represented nationally, it is critical that we have active participation in these meetings.

Please click here to [register](#) for the meeting closest to you.

New Brunswick	13 January, 2014 @ 1PM	University of New Brunswick, Fredericton Campus, Aitken Room
Prince Edward Island	14 January, 2014 @ 1PM	University of PEI, Room 202, Duffy Science Building
Nova Scotia	15 January, 2014 @ 1PM	Dalhousie University, The Great Hall, Dalhousie University Club
Newfoundland	17 January, 2014 @ 1PM	Memorial University, SN4083, Science Building
