

ACEnet Basics Workshops

Introduction to ACEnet

What is ACEnet and what can it do for me? How do I get an account? Once I've got an account, how do I get connected and start doing things?

Dalhousie University	Wednesday, May 1, 12:30 PM ADT	Killam basement B270
Dalhousie (Sexton Campus)	Friday, May 3, 12:30 PM ADT	Mechanical Engineering C350
St. Francis Xavier University	Monday, May 6, 2:00 PM ADT	PSC1096
University of New Brunswick	Wednesday, May 1, 12:30 PM ADT	GE-131
Memorial University	Wednesday, May 1, 1:00 PM NDT	EN-4034

Introduction to Unix Command Line

Learn the basic commands and concepts needed to work with the Unix/Linux command line interface.

Dalhousie University	Monday, May 6, 12:30 PM ADT	Killam basement B270
St. Francis Xavier University	Wednesday, May 8, 2:00 PM ADT	PSC1096
University of New Brunswick	Monday, May 6, 12:30 PM ADT	GE-131
Memorial University	Friday, May 3, 1:00 PM NDT	EN-4034

Introduction to Shell Scripting

Exercise the power of the command line with shell scripting.

Dalhousie University	Monday, May 13, 12:30 PM ADT	Killam basement B270
St. Francis Xavier University	Friday, May 10, 2:00 PM ADT	PSC1096
University of New Brunswick	Monday, May 13, 12:30 PM ADT	GE-131
Memorial University	Wednesday, May 8, 1:00 PM NDT	EN-4034

Job Management with Grid Engine

How the job scheduler works, and how to make it work better for you.

Dalhousie University	Wednesday, May 8, 12:30 PM ADT	Killam basement B270
St. Francis Xavier University	Monday, May 13, 2:00 PM ADT	PSC1096
University of New Brunswick	Wednesday, May 8, 12:30 PM ADT	GE-131
Memorial University	Friday, May 10, 1:00 PM NDT	EN-4034

ACEnet Focus Workshops

Perl

An introduction to the Perl scripting language. This is a local workshop at St. Francis Xavier University, but could be made available over videoconference with sufficient interest.

Introduction to Perl

Instructor: Shah Razul

Location: PSC1096, St. FX

Wednesday, May 14, 10:00 AM

ADT, 1:00 PM NDT

Grid Engine

How to submit multiple jobs without typing qsub each time. Templates, loops, task arrays. Delivered over videoconference in your local ACEnet collaboration room.

Managing Many Jobs

Instructor: Ross Dickson

Friday, May 17, 12:30 PM ADT,

1:00 PM NDT

Python

Get acquainted with a popular and easy to learn programming language. Delivered over videoconference in your local ACEnet collaboration room.

Introduction to Python

Instructor: Joey Bernard

Wednesday, May 22, 12:30 PM

ADT, 1:00 PM NDT

Python Add-ons: SciPy & NumPy

Instructor: Joey Bernard

Friday, May 24, 12:30 PM ADT,

1:00 PM NDT

Parallel Programming

An introduction to parallel programming and two of the most common parallel APIs: MPI and OpenMP. Delivered over videoconference in your local ACEnet collaboration room.

Parallel Programming Overview

Instructor: Ross Dickson

Friday, May 31, 12:30 PM ADT,

1:00 PM NDT

MPI: Point-to-point Communication

Instructor: Alejandro Allievi

Wednesday, June 5, 12:30 PM

ADT, 1:00 PM NDT

MPI: Collective Communication

Instructor: Alejandro Allievi

Friday, June 7, 12:30 PM ADT,

1:00 PM NDT

OpenMP: Introduction

Instructor: Joey Bernard

Wednesday, June 19, 12:30 PM

ADT, 1:00 PM NDT

OpenMP: Shared Memory Programming

Instructor: Joey Bernard

Friday, June 21, 12:30 PM ADT,

1:00 PM NDT

GROMACS

An introduction to Molecular Dynamics techniques via the popular and versatile open source software package, GROMACS. Delivered over videoconference in your local ACEnet collaboration room.

GROMACS I: Intro & Principles Instructor: Shah Razul	Monday, June 10, 12:30 PM ADT, 1:00 PM NDT
GROMACS II: Properties & Tools Instructor: Shah Razul	Monday, June 17, 12:30 PM ADT, 1:00 PM NDT
GROMACS III: Forcefields Instructor: Shah Razul	Monday, June 24, 12:30 PM ADT, 1:00 PM NDT

Matlab

Learn how to solve and accelerate computationally and data-intensive problems using multicore processors, GPUs, and computer clusters.

11:00 - 12:00 Parallel & Distributed Computing
12:00 - 1:00 Lunch courtesy of Mathworks
1:00 - 2:00 GPU Computing with Matlab

University of New Brunswick	Parallel and GPU Computing with Matlab Instructor: Mathworks Engineer Location: TBA	Tuesday, June 11, 11:00 AM ADT
Dalhousie University	Parallel and GPU Computing with Matlab Instructor: Mathworks Engineer Location: TBA	Wednesday, June 12, 11:00 AM ADT
Memorial University	Parallel and GPU Computing with Matlab Instructor: Mathworks Engineer Location: EN4034	Thursday, June 13, 11:00 AM NDT

R

An introduction to the statistical computing language R, a standard tool for any Big Data and Data Analytics researcher. Delivered over videoconference in your local ACEnet collaboration room.

Introduction to R Instructor: Joey Bernard	Friday, June 14, 12:30 PM ADT, 1:00 PM NDT
--	---

To ensure your local collaboration room is set-up for you, please register for any workshop you plan to attend: <http://acenet-workshops.eventbrite.ca>
