

MANAGER, BUSINESS DEVELOPMENT AND MARKETING

(Contractual Position to March 31, 2017)

ACEnet, one of four regional consortia of Compute Canada, is based in Atlantic Canada and provides researchers and industry with high performance computing (HPC) resources, collaboration and visualization tools, software, training, and support. Our team of experts helps our clients use advanced computing as a means of accelerating discovery and innovation. www.ace-net.ca

ACEnet seeks an entrepreneurial thinker to lead its business development and marketing function, with an eye towards expanding our impact and user base. Reporting to the Executive Director and working closely with Compute Canada, the Manager will be a member of the senior leadership team of ACEnet. This position is responsible for all ACEnet and Compute Canada business development and marketing initiatives in Atlantic Canada. The successful candidate will be able to be based in any of the current ACEnet partner institutions in Atlantic Canada..

DUTIES

The successful candidate will be responsible for the full scope of business development activities including developing and implementing marketing and communications plans in consultation with the senior management team. This role will work with appropriate internal (partner institutions and Compute Canada) and external (industry) partners to initiate entrepreneurial activities and ventures. Duties include assisting in the development of the strategic plan both regionally and nationally to address critical issues in business development and marketing; providing strong, effective and highly visible leadership to assist other ACEnet staff in contributing to the Compute Canada and ACEnet mission, vision, goals and objectives; marketing the organization effectively; developing and implementing communications and media strategies; conducting effective market research to ensure demographics and emerging issues are current to evaluate effectiveness of the marketing strategies; monitoring and researching industry trends and needs; identifying and pursuing development opportunities within Atlantic Canadian industry; conducting outreach activities to the Atlantic Canadian university research community; developing and maintaining relationships with both public and private sector stakeholders to ensure ongoing development of new initiatives including preparation of funding, research, project and partnership proposals; negotiating partnership agreements and/or strategic alliances; implementing and coordinating development activities within ACEnet, Compute Canada and other partners.

QUALIFICATIONS

Experience (3-5 years) in a marketing and business development capacity; graduation from a four-year college or university with a degree in business, marketing, or public relations; or any equivalent combination of experience and training. The successful candidate will be an entrepreneurial thinker who embraces challenge, solves problems, builds collaborations, and thinks fluently. Superior interpersonal, presentation, relationship building and communication skills are essential. The successful candidate must be capable of working with the management team in ACEnet and Compute Canada to achieve its vision, be a team player and leader, and understand how to build an entrepreneurial culture.
