

Complex Systems and Networks

February 7 **Spectral Analysis and Dynamical Behavior of Complex Networks**

Prof. Ljiljana Trajkovic
School of Engineering Science, Simon Fraser University

February 21 **Aging in Individuals and Populations/Mathematical Modeling**

Dr. Arnold Mitnitski
Department of Medicine, Department of Community Health and Epidemiology,
Department of Mathematics and Statistics, Dalhousie University

March 6 **Five-Colour Theorem and Beyond**

Dr. Bojan Mohar
Canada Research Chair in Graph Theory
Department of Mathematics, Simon Fraser University

March 20 **How to Build a Brain: From Single Cells to Cognitive Systems**

Dr. Chris Eliasmith
Department of Philosophy, Department of Systems Design Engineering
Canada Research Chair in Theoretical Neuroscience
Director, Centre for Theoretical Neuroscience, University of Waterloo

April 3 **Planning and Control of Massive Networks**

Dr. David Hill
Ausgrid Chair of Electrical Engineering, University of Sydney

All talks **3:30 PM Atlantic**
4:00 PM Newfoundland

Delivered via videoconference in your
local ACEnet Collaboration Room

Organized and
distributed by
